IDRIL Services is a small business established in 2010. We have worked with various agencies to support the implementation of data storage, data archiving, and technology solutions: cyber security, networking security & blockchain, Artificial Intelligence (AI), cloud computing and machine learning. Our team also supports agencies with staff augmentation and temporary to full-time hiring in the tech industry. We specialize in offering customized personnel solutions within the technology arena.

IDRIL has graduated from Small Business Administration (SBA) as a part of the 8 (a) development program. We are also a third-party certified Women-owned Small Business.

Whether it's people, hardware or software, we make technology work for you to ensure a more adaptive and competitive environment.
